Prelim Lesson 12:Self Assessment

- Date of submission: 09/05/21
- **Instructions:** Create a C++ program that shows the application of input and output statement.
- File directory [Prelim Lesson 12:Self Assessment](#)

```
#include <iostream>
using namespace std;

int main(){

    string name;
    int age;

    cout << "Enter your name: ";
    cin >> name;

    cout << "Enter your age: ";
    cin >> age;

    cout << "Hi " << name << "! You are " << age << " year's old.";

    return 0;
}
```

Output:

```
Enter your name: James
Enter your age: 18
Hi James! You are 18 year's old.
```
